Before I finished my second bottle, I threw my canes away, and could walk as good as anyone. And eat; why, I George S. Burrows, Marlborough, N. never had such an appetite. It was said that these are numerous and swift enough to make the eventual apprehension of the converted fishing vessel absolutely certain unless the enemy crew destroys the ship or attempts to engage one of the pursuers in unequal combat. Officials here expressed the belief tonight that the German commander

This would result, the German officers might hope, in large force being held along When I did get up I was in such a of the coast guard at other points. The answer made to this possibility is that adequate forces are now in service at every vital point to protect all ships.

With the crew of seventeen men, armed with revolvers and a machine gun or two, the Triumph would be able to capture and then destroy a number of small craft. The maximum military advantage the Germans can hope to obtain, it was held, was the depletion of the supply of canned
